Double Patenting

1. Claim 20-69, 71-79, 81-82, 84-106 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1-35 of U.S. Patent No. 6162123. This holding is maintained from prior action which is incorporated herein.

2. The terminal disclaimer does not comply with 37 CFR 1.321(b) and/or (c) because:

The person who has signed the disclaimer has not stated the extent of his/her interest, or the business entity's interest, in the application/patent. See 37 CFR 1.321(b)(3).

Response to Arguments

3. Applicant's arguments filed 12/31/03 have been fully considered but they are not persuasive. Since the person who has signed the disclaimer failed to properly report either his interest or the business entity's interest in the application, the disclaimer fails to comply with rules and does not remove holding.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
